

Fingerprint Standalone Access Controller

TF1-AS

Features

- Plastic shell, acrylic panel
- Durable, tamper-proof and vandal-proof
- High and low temperature resistance: high temperature 55°C, low >temperature -35°C
- Anti-magnetic and anti-copy: It can prevent unlocking with strong magnets and anti-copy cards
- 300 fingerprints, 5000 card password user storage capacity
- Temporary password and public password can be set
- Data mutual guide and backup
- All-in-one machine, WG26/34 input/output

Specifications

Card reader type	ID, IC, NFC fingerprint recognition
Working voltage	DC12V ±10%
Electric lock output	≤1A
Ambient humidity	10%- 90%
Card reading distance	3-8 cm
User capacity	5000 cards, passwords; fingerprints 300
Quiescent current	≤30mA
Ambient temperature	-35 ~ 55 °C
Output short circuit protection time	≤100μS

Dimensions(mm)

S4A Industrial Co., Limited

Address: 6th Floor, Haotai Industrial Zone, Minzhi road,
Longhua District, Shenzhen. CN 518131
